

SUPERHEROES

Jamaica– a Non European country.
The capital city is Kingston.
Jamaica is located in North America.

What have we already learnt?

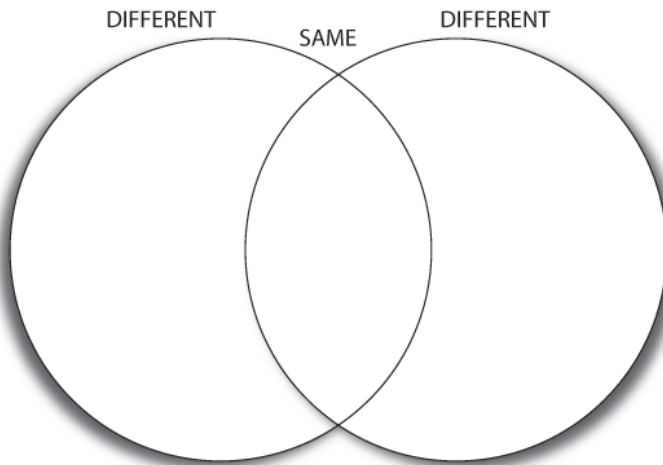

Previously, children have learnt about similarities and differences within the UK, e.g climate and weather, seasons in the UK so that they develop an understanding of areas they live in before comparing other countries in the world in Year 2 and KS2. This lends itself to children being able to then describe the similarities and differences between a country near them/ their own country and another place in the world.

You can use a venn diagram to compare. Compare the location, houses, food, climate and tourism in Jamaica and Scotland.

Scotland– a country in Europe.
The capital city is Edinburgh.
Scotland is located in Europe.

Venn Diagram

Vocabulary	Definition
Equator	The imaginary circle around the Earth that is halfway between the North and South Poles.
Europe	The continent we live in.
Non-European country	A country that is not in Europe.
Climate	The usual weather conditions of an area.
