Case study – Chris Baker

I wanted to train through SSF SCITT party because I came to teaching slightly later than many of my colleagues. It was important to me to be part of a school community as quickly as possible - I knew I would learn so much from being there. The opportunity to train locally, as part of a team of outstanding teachers, in an outstanding SCITT partnership, was very exciting. I couldn't have asked for a better start.

From day one I felt like a member of the school team. Being based in my host school from the beginning has allowed me to really immerse myself in the job. I've been able to see my impact on children's learning and develop my skills and knowledge. The experienced teachers here couldn't have been more helpful. I'm confident in the classroom and am developing my own personal style.

I enjoyed my year as a SCITT trainee. The support provided by SSF SCITT was invaluable, my mentor challenged and supported me the whole way and I made a real contribution to the school.
