GENERAL INSIDE THE BUILDINGS - CHECKLIST ADDED OCTOBER 2019 (added from Access, Autism, Dementia and Learning Difficulty Friendly Schools Assessment document)

Please answer all the questions in this audit. 1= yes - completely, 2 = almost - working towards meeting the guidance, 3 = partially, 4 = not yet considered.

A. Physical Considerations	1	2	3	4		
<u>Lighting</u>					Lighting upgrade programme completed	
i Is inside the building well lit? Is natural light used as much as possible? Are there blinds to minimize glare and reflections but do not cause shadows at certain times of the day? LUX level 100 - 300	✓				Lighting in area under Puffins staircase upgraded.	
ii Are there pools of bright light or deep shadows (these should be avoided)?	✓				RS conducted review with pupil who has impaired vision in Spring term 2021 to identify whether anything else is needed around school to assist them or someone who has impaired vision eg. lighting, braille or other signage, contrast markers on playground equipment, stairs,	
<u>Signage/Navigation</u>						
iii Is internal signage in good order and lit adequately?	✓					

iv Are there appropriate signs and tactile information available for visitors with disabilities located around the building?	✓			steps etc. No additional issues flags.	
v Is any temporary signage in an accessible size and font? (e.g. sans serif)	✓			Review requirements for tactile signage annually or when circumstances require	
vi Are your signs clear, in bold face with good contrast between text and background?	✓			NB: icons used - class avatars are required and helpful Pictorial signs have been added where appropriate.	
vii Is there a contrast between the sign and the surface it is mounted on? This will allow the person to recognise it as a sign.	✓				
viii Are signs at eye level and well-lit?	✓				
ix Are signs highly stylized or use abstract images or icons as representations? (These should be avoided).	✓				
x Are there pictorial signs for certain areas such as kitchen, bathroom, and lounge?	✓				
xi Are signs placed at key decision points for someone who is trying to navigate your premises for the first time? -	✓				
<u>Flooring and Décor</u>					
i Is floor covering slip-resistant and safely secured to the floor?	✓				
ii Are there any highly reflective or slippery floor surfaces? -

New signs purchased for new classrooms and all WC's (including braille for WC's) December 2021

Maps are in place at all suitable points around school

Reflections can cause confusion.	✓					
iii Do you have bold patterned carpets? - Plain or mottled surfaces are easier; patterns can cause problems to people with perceptual problems.	✓					
iv Are changes in floor finish flush rather than stepped - changes in floor surfaces can cause some confusion due to perceptual problems. If there is a step at the same time you also introduce a trip hazard.	✓					
v Is there distinctive tones or colours to aid orientation around the building?	✓					
<u>Corridors</u>						
I Are corridors well lit?	✓					
<u>Internal Doors</u>						
i Are internal doors wide enough for wheelchair access?	✓					
ii If the door is a fire exit, does it have a push bar opening mechanism?	✓					
iii Are hold open devices for fire doors in good working order?	✓					
Iv Are signs fixed to the doors they refer to? - They should not be on adjacent surfaces if at all possible.	✓

vii Is the sink easy to reach and are taps easy turn or sensor activated?	✓					
viii Is the toilet flushing mechanism easy to use?	✓					
<u>Safety Considerations</u>						
i Do health and safety assessments identify hot water safety fittings to moderate water temperature?	✓					
ii Do health and safety assessments identify any exposed sharp edges and/or corners that require covering?	✓					
<u>Seating</u>						
i In larger premises - do you have seating area, especially in areas where people are waiting? Is there space for a wheelchair user to pull up alongside a seated companion?	✓					
ii Does seating look like seating? People with learning disabilities and autism will find this easier - so for example a wooden bench would be preferable to an abstract metal Z-shaped bench.	✓					
B. Management or Training considerations						
i Are your staff trained to respond to and deal with calls for help raised from the assistance alarm in WC?	✓				Completed. Test alarms annually	

<p><u>Emergency Procedures</u></p> <p>i Are ground floor exit and entrance routes accessible to all, including wheelchair users?</p> <p>Ii Are exit routes free from obstructions?</p> <p>Iii If some disabled people cannot completely evacuate the building, can they reach places of safety or refuges?</p> <p>Iv Are fire exits clearly signposted?</p> <p>V Do you have an Evac Chair / Mat on the premises?</p> <p>Vi Is your audible alarm system in good working order?</p> <p>Vii Is your visual alarm system in good working order?</p>	<p>✓</p> <p>✓</p> <p></p> <p>✓</p> <p></p> <p>✓</p> <p>✓</p> <p>✓</p>			<p>✓</p> <p>✓</p>	<p>No internal refuges but Evac chair will be deployed</p> <p>Evac chair suitable for children and adults purchased in Spring term 2021 and located in the main hall.</p>

21 Are car park spaces reserved for disabled people near the main entrance? Is it clear these spaces are not for use by non-disabled people?	✓				1 disabled space at present	

22 Are there any barriers to easy movement around the site and to the main entrance?		✓			FUTURE REVIEW. Keep under review in case it becomes an issue in the future for any disabled pupils.	
23 Are steps needed for access to the main entrance?					No	
26 Is there a continuous handrail on each ramp and stair flight and landing to the main entrance?					N/A	
27 Is it possible for a wheelchair user to get through the principal door unaided?	✓					
28 If no, is an alternative wheelchair accessible entrance provided?					N/A	

4c INTERNAL FACILITIES	1	2	3	4	Comments	Target date for completion of action items
29 If there is a lobby at the principal entrance, is it possible for a wheelchair user to negotiate the doors?	✓					
30 Do all internal doors allow a wheelchair user to get through unaided?			✓		<p>All internal doors replaced in Autumn term 2022</p> <p>FUTURE REVIEW. Internal doors are correct dimensions to allow wheelchair access, but not "unaided". They are all opened and closed manually apart from door from reception lobby into school. This is for safety reasons. Would need to consider whether automatic doors are necessary to accommodate future pupils/staff in wheelchairs.</p>	

				Door stops in the corridors to allow access for a child with a walker.	
31 Do all the corridors have a clear unobstructed width of 1.2m?		✓		FUTURE REVIEW. Entrance corridor to KF (formerly Robins) classroom is 73cm wide and doorways are also tight for wheelchair users.	
32 Does the building have a wheelchair accessible toilet		✓		<p>Yes but currently only 1 toilet for use by adults and children.</p> <p>Step now in place to enable pupils to use accessible toilet if needed.</p> <p>FUTURE REVIEW.
